Hi Ricky!

Karlyn and I know and understand you're very busy now so we just wanted to reach out to you.

We just wanted to wish you well in your new adventure and as long as you're happy, nothing else really matters.

We know how difficult last Saturday's call was for you. Parting ways with a long time friendship can be very difficult. We're glad to see you and Ash back together and who knows maybe the third leg of the stool will rise from the ashes again.

Wishing you and Waszupp Global much prosperity! Our prayers are with you and your family always! Until we're able to chat again...

Much Love Bear Claw Man,

Stephan & Karlyn

PS. I want you to know that I'm trying to convince anyone who is not part of WaszuppNOW.NET to unsubscribe from our database. The folks evidently subscribed into both systems. We never thought we'd be in this place so I never put in safeguards to guard against this. But I wanted you to know we **do not** want to infiltrate WCF or WG people. It will take some time but we'll get there.
